Hackathon-Lite

csesoc UNSW x Deloitte.

Fri 12th June 11am - Sat 13th June 3pm

ARC CLUBS
SUPPORTED BY Arc
INDEPENDENTLY RUN

Welcome to CSESoc's first ever Hackathon-Lite!

If you haven't already, please join the hackathon Slack!
@csesoc in any channel to tag the CSESoc team!

Slack Outline

- Slack is our main form of communication. Channels to look out for include:
  - #announcements - Announcements will be posted here throughout the event.
  - #info - Resources will be uploaded here.
  - #discussion - A place where participants can chat to each other regarding the competition.
  - #questions - Where questions aimed at event administration should be posted.
- Each team will also have their own private channel. However, you can choose to communicate amongst yourselves through other means.
- If you haven't been added to your own private channel and would like to do so, please message **Finley Ghosh**

Rules

- Teams have 24 hours to build a prototype that adheres to the competition's theme. There are no restrictions on what this prototype must be or the tools used to create it.
- Teams must not start working on their prototype before the competition.
- Teams must not work on an existing project during the competition.
- Any third-party material used must be legally licensed, available for public download, and open-source. You must specify any third-party material used in your submission.
- Breaching of rules will incur serious consequences!

Our theme is...

Improving & supporting virtual health services or aids!

Problem Statement

"The COVID-19 Pandemic has made society more reliant on virtual health services. Given the sudden nature of the event, many of these services weren't designed with the problems caused by the pandemic in mind and are consequently facing great difficulty. Come up with a product that improves or supports virtual health services."

Schedule - Day 1

Day 1

1100	Briefing and setup time
1200	Hackathon-Lite begins
1300 - 1400	1st mentoring session
1530 - 1705	2nd mentoring session

Schedule - Day 2

Day 2

1000 - 1100	3rd mentoring session
1200	Hackathon-Lite ends
1215 - 1300	1st round of judging
1320 - 1430	Final round of judging

Platform Engineering

Today's Mentors and Judges
What exactly do they do?

Deloitte Platform Engineering (DPE)

Our team is dedicated to building platforms so that our clients can disrupt industries, before industries disrupt them. Our platforms are built on a combination of open source technologies, cloud platforms, cutting-edge engineering and development practices as well as partnering with the likes of AQS, Google Cloud, Red Hat, MuleSoft, Alfresco and Elastic.

Digital Marketing, Commerce & Digital Experience (MC&DE)

We are the Marketing, Commerce & Digital Experience team in Deloitte Digital - we reimagine how experience platforms can be better designed and delivered and provide rich user interfaces utilising cutting-edge technologies! We are specialists across a diverse range of technologies, and are the conduit between business, technology and creative disciplines.

Digital Customer Platforms

We build tech platforms from the ground up and apply this to complex client projects, driving digital transformation and deliver end-to-end solutions leveraging the salesforce platform with mobile apps, digital experiences, and seamless data integration, and specialising in areas like AI, IoT, Platform Development and analytics.

Enterprise Technology

We constantly look for ways to disrupt the tech systems and apps space with cutting-edge technologies like robotics, cognitive learning, and advanced analytics. Oh, and we get to work with cool companies like SAP, Oracle and Netsuite to deliver solutions for our clients.
